Re: Second Extension Request, Larson Limestone, Pelican Point Quarry, M/049/011, Utah County, Utah

Dear Mr. Larson:

Thank you for your prompt reply to the Division's November 26, 1997 letter which established a December 15, 1997 deadline for submitting your response to the Division's October 2, 1997 review of your Notice of Intention to Conduct Large Mining Operations. After discussing this matter with your consultant, you requested another extension until January 30, 1998.

After giving careful consideration to the rationale provided for this request, we hereby approve the request to extend the deadline for responding to the review letter until January 30, 1998. This is the last extension the Division can grant. If you need additional time, we will need to explain this lengthy delay to the Board of Oil, Gas and Mining and will expect your assistance in so doing. We anticipate that this additional time will result in an adequate response to the Division's review comments so that the permitting process for the Pelican Point Quarry can be finalized shortly thereafter.

As always, please don't hesitate to call, or have your consultant call, if you have any additional questions or concerns.

Sincerely,

Mary Ann Wright,
Associate Director of Mining
